PROFESSIONAL SUMMARY

Frontend Developer with 6+ years of commercial experience building internal web applications, modern corporate websites, and business automation solutions. Strong practical expertise in JavaScript (ES6+), Astro, HTML5, CSS3, Docker, SQL, and Git. Led the full modernization and cloud migration of corporate portals to Microsoft Azure, containerized platforms on dedicated Linux servers within secured DMZ perimeters, and delivered SharePoint-based Global Inventory systems used across 12 international offices. Currently expanding skills into modern React and TypeScript. Actively applying AI-assisted development workflows (LLMs, AI agents) to streamline research, prototyping, automation, and engineering.

TECHNICAL SKILLS

Frontend:	JavaScript (ES6+), Astro, HTML5, CSS3, Tailwind CSS, Bootstrap, WordPress, jQuery
Expanding / Learning:	React, TypeScript
Backend & Data:	REST APIs, SQL, SharePoint, Power Automate
DevOps & Cloud:	Docker, Linux, Bash, Git, Microsoft Azure (Azure Repos, Azure Pipelines, Azure Static Web Apps), PowerShell
Design & Other:	Photoshop, Lightroom, DaVinci Resolve, 3ds Max, ArchiCAD, SketchUp, Kentico, FlutterFlow

WORK EXPERIENCE

Frontend Developer · Euro-Center Holding SE 2020 – Present | Prague, Czech Republic

- Migrated the corporate website (**euro-center.com**) to **Astro**, with source control in **Azure Repos** and automated deployment through **Azure Pipelines** to **Azure Static Web Apps**.
- Achieved desktop PageSpeed Insights scores of **98 Performance**, **97 Accessibility**, **96 Best Practices**, and **100 SEO** for the new Astro website.
- Containerized the corporate WordPress platform using **Docker** on a dedicated Linux server within a secured **DMZ** environment; executed seamless server migrations and supported corporate web infrastructure with 99.9% uptime.
- Developed and deployed a SharePoint-based Global Inventory system adopted by operational teams across 12 international offices.
- Built interactive internal interfaces with JavaScript, HTML, and CSS for corporate employees managing business data and operational reporting.
- Automated onboarding, administrative forms, and business workflows using Power Automate and SharePoint integration.
- Administered Azure environments and executed SQL queries for business data operations.

Tech: JavaScript, Astro, Azure Repos, Azure Pipelines, Azure Static Web Apps, Docker, Linux, HTML5, CSS3, SharePoint, Power Automate, SQL, WordPress, Git

Technical Support Specialist (1C) · Ista Corporation s.r.o. 2018 – 2020 | Prague, Czech Republic

- Provided technical support for 1C enterprise business software, investigated complex user issues, and ensured continuous system reliability.

Junior Frontend Developer · HSI, spol. s r.o. 2017 – 2018 | Prague, Czech Republic

- Supported web application development using JavaScript, HTML, CSS, and SQL; implemented user interface components and database query tasks.

Earlier Leadership & Operational Experience

2008 – 2017

- Transitioned into software engineering with a proven executive and municipal coordination background: **Chief Executive & Expert** at Auction House “Kleynod” (business management & client strategy), **Chief Specialist** at Kyiv City Administration (inter-departmental operations for UEFA Euro 2012 staging), and technical support at Apple. Provides strong business acumen, ownership, and stakeholder communication skills.

SELECTED WEB PROJECTS

Euro-Center — Corporate Cloud Modernization

euro-center.com ↗

Re-architected the corporate web platform from a dedicated Dockerized WordPress setup to an Astro website deployed automatically through Azure Pipelines to Azure Static Web Apps, improving performance, security, and maintainability.
Tech: Astro, Azure Repos, Azure Pipelines, Azure Static Web Apps, Docker, JavaScript, WordPress.

Achatina — Specialized E-Commerce Platform

achatina.com.ua ↗

Engineered responsive B2C e-commerce platform for an exotic pet and terrarium supply business. Built dynamic product catalog navigation, species filtering, rich media lightbox galleries, and custom order inquiry forms with client-side validation.
Tech: JavaScript, E-Commerce UX, WordPress, HTML5, CSS3, Filtering.
